NEXTGEN LIVESTREAMS: COMPREHENSIVE MEDIA & AI PRODUCTION STUDIO OVERVIEW

NextGen LiveStreams is a versatile, professional media production studio located in Central Ohio, specializing in high-quality live streaming, podcast production, voiceover work, virtual set creation, advanced video editing services, and innovative AI-driven content creation. The studio operates under the leadership of Jamey Kistner, whose extensive experience in multimedia, broadcasting, and AI technologies ensures polished, engaging, and cutting-edge content.

Studio Capabilities

NextGen LiveStreams boasts a comprehensive array of production capabilities designed to meet diverse media needs, including:

- *Professional Livestreaming:* Utilizing vMix software, NextGen LiveStreams delivers smooth, professional livestreaming experiences across multiple platforms, suitable for podcasts, events, conferences, and virtual meetings.
Example Project: Whitehall Mayor State of the City Address
- *Podcast Production:* Expertise in podcast recording, editing, and distribution, focusing on both audio and video podcast formats for clear and engaging listener experiences. **Central Ohio Creators Podcast Episode Samples: 0, 1, 2, 3**
- *Voiceover Services:* Professional-grade voiceover production featuring specialized equipment, including the Rodecaster Pro II audio board, Rode Podcaster microphone, Rode Wireless Pro, and advanced isolation foam (Kaotica Eyeball). Jamey's practical experience includes radio segments, commercials, voice blocking, and previous roles such as licensed broadcaster for WFAL (Falcon Radio).
- *Virtual Set Production:* Innovative creation of virtual sets and environments enhancing visual storytelling and audience engagement. **Virtual Set Example**
- *Advanced Video Editing:* Proficient in Adobe Premiere Pro, offering precise, high-quality video editing tailored for various project requirements, ensuring exceptional visual narratives.
- *AI Content Creation:* Extensive expertise in generating dynamic AI-driven content, including custom AI avatars, AI voiceovers, multilingual capabilities (up to 150 languages), AI voice cloning, and animated AI-generated imagery. **Sample AI Avatar and Voice Work, 5-Second AI Animated Example**

Technology & Equipment

NextGen LiveStreams features cutting-edge technology designed to deliver consistent, top-tier results:

- *Software:* vMix for livestream production, Adobe Premiere Pro, Adobe Audition, and specialized plugins for enhanced productivity.
- *Hardware:* Rodecaster Pro II audio board, Rode Podcaster microphone, Rode Wireless Pro system, multi-camera setups, specialized lighting kits, and dedicated streaming rigs.
- *AI Tools:* Platforms for AI avatar creation, voice synthesis, and AI-generated image and video animation.

Key Projects & Productions

NextGen LiveStreams successfully produces diverse projects showcasing creative and technical expertise:

- *Central Ohio Creators Podcast:* Highlighting inspiring journeys of local creators and entrepreneurs such as DJ Jr Jag, Shemuel Namaste, and Bizzoe.
- *Virtual & Livestream Events:* Professional, interactive virtual event production.
- *Community & Collaborative Projects:* Committed to enriching Central Ohio's vibrant creative community.

Special Client Projects: Expertly handling last-minute client requests, and coordinating challenging shoots, including those with unique elements like pet models. **Penthouse Client Shoot**
